

Registration opening for Year 2025 - 2026

Private Specialized Centre in Gland

For Children with Autism and Other Developmental Disorders

Teaching procedures based on behavioral, developmental and educational approach

Enrolment conditions: children with autism or other developmental disorder between age of 2 & 8 years old at the beginning of the services.

Therapy (English or French): Each child receives a personalized and intensive program (ESDM / ABA program) (1 to 2 children/1 instructor-therapist) based on his current skill level, the development of new skills and the decrease of potential inappropriate behaviors. Therapy begins after an initial assessment and elaboration of an IEP

See parent brochure:
